2. Hazards Identification

Physical hazards

Gases under pressure

Liquefied gas

Health hazards

Skin corrosion/irritation

Category 2

Serious eye damage/eye irritation

Category 2

Specific target organ toxicity, repeated

Category 2

exposure

Environmental hazards OSHA defined hazards

Not classified. Not classified.

Label elements

Signal word

Warning

Hazard statement

Contains gas under pressure; may explode if heated. Causes skin irritation. Causes serious eye

irritation. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention

Wash thoroughly after handling. Wear protective gloves. Wear eye/face protection. Do not

breathe mist or vapor.

Response

If on skin: Wash with plenty of water. Specific treatment (see this label). If skin irritation occurs:

Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Get medical advice/attention if you feel unwell.

Storage

Protect from sunlight. Store in a well-ventilated place.

Disposal

Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC)

None known.

Supplemental information

This is a registered EPA product. The product labeling is in compliance with EPA regulations and quidelines.

3. Composition/Information on Ingredients

Mixtures	
Chemical name	Common name and synonyms

Chemical name	Common name and synonyms	CAS number	<u> </u>
Butane		106-97-8	1-5
Diethylene glycol monobutyl eth	er	112-34-5	1-5

Chemical name	Common name and synonyms	CAS number	<u>%</u>
Propane		74-98-6	1-5
Tetrasodium ethylenediamine tetraacetate		64-02-8	1 - 5
Composition comments	US GHS: The exact percentage (concentration secret in accordance with paragraph (i) of §1	on) of composition has been w 910.1200.	ithheld as a trade
	4. First Aid Measures		
Inhalation	Move person to fresh air. If person is not brearespiration, preferably mouth-to-mouth if post- treatment advice.	athing, call 911 or an ambulan sible. Call a poison control cer	ce, then give artificial ter or doctor for further
Skin contact	If on skin or clothing: Take off contaminated for 15-20 minutes. Call a poison control centr	e or doctor for treatment advic	e.
Eye contact	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.		
Ingestion	If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.		
Most important symptoms/effects, acute and delayed	Symptoms may include stinging, tearing, red cause redness and pain.	ness, swelling, and blurred vis	ion. Skin irritation. May

	5. Fire Fighting Measur	es	
Suitable extinguishing media	Alcohol resistant foam. Carbon dioxide. Dry	chemical.	
Unsuitable extinguishing media	Do not use water jet.		
Specific hazards arising from the chemical	Contents under pressure.		
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equal face shield, gloves, rubber boots, and in encl	osed spaces, SCBA.	
Fire fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been expos to heat. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers. Containers should be cooled with water to prevent vapor pressure build For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If no withdraw and let fire burn out.		ater spray to cool apor pressure build up.
Specific methods	Cool containers exposed to flames with water	r until well after the fire is out.	
	6. Accidental Release Mea	sures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep or spill/leak. Wear appropriate protective equips damaged containers or spilled material unles adequate ventilation. Local authorities should contained. For personal protection, see secti	ment and clothing during clear ss wearing appropriate protect d be advised if significant spilla	n-up. Do not touch ive clothing. Ensure
Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if you can do so without risk. Move the cylinder to a safe ar open area if the leak is irreparable. Isolate area until gas has dispersed. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.		
Environmental precautions	Avoid discharge into drains, water courses o	r onto the ground.	
	7. Handling and Stora	ge	
Precautions for safe handling	Pressurized container: Do not pierce or burn or defective. Do not spray on a naked flame while using or until sprayed surface is thorou expose containers to heat, flame, sparks, or when transferring material. Do not re-use en well-ventilated areas. Wear appropriate pershygiene practices. Avoid contact with eyes, s	or any other incandescent ma	terial. Do not smoke der, drill, grind, or und and bond containers ed exposure. Use only i

Conditions for safe storage, including any incompatibilities

Contents under pressure. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. Protect from sunlight. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

8. Exposure Controls/Personal Protection

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value
Propane (CAS 74-98-6)	PEL	1800 mg/m3
,		1000 ppm

US. ACGIH Threshold Limit Values

Components	Туре	Value	Form
Butane (CAS 106-97-8)	STEL	1000 ppm	
Diethylene glycol monobutyl ether (CAS 112-34-5)	TWA	10 ppm	Inhalable fraction and vapor.
US, NIOSH: Pocket Guide to Chem	ical Hazards		

US. NIOSH: Pocket Guide to Ch Components	туре Туре	Value	
Butane (CAS 106-97-8)	TWA	1900 mg/m3 800 ppm	
Propane (CAS 74-98-6)	TWA.	1800 mg/m3 1000 ppm	

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection

Wear appropriate chemical resistant gloves.

Other

Not available.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards

Not applicable.

General hygiene considerations

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Mobility in soil

No data available.

Mobility in general

Not available.

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal Considerations

Disposal instructions

Container Disposal: Nonrefillable container. Do not reuse empty container. Do not puncture or incinerate. IF EMPTY: Place in trash or offer for recycling if available. IF PARTLY FILLED: Call your local waste agency for disposal instructions. Consult authorities before disposal. Contents under pressure. Do not puncture, incinerate or crush. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Hazardous waste code

Dispose in accordance with all applicable regulations.

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Empty containers should be taken to an approved waste handling site for recycling or disposal. Contaminated packaging

Since emptied containers may retain product residue, follow label warnings even after container is

emptied. Do not re-use empty containers.

15. Regulatory Information

US federal regulations

This is an EPA registered product. This material can only be used commercially in the EPA registered application(s) noted on the product label.

EPA Reg. # 1839-84-65516

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

WARNING

KEEP OUT OF THE REACH OF CHILDREN. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

Contents under pressure. Do not puncture. Do not use or store near open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.
