Arrid® Clear Gel Glide On Antiperspirant

Date Prepared: 11/09/01

The statements contained herein are offered for information purposes only and are intended to be followed only by persons, in an occupational environment, having related technical skills and at their own risk. Since conditions and manner of use are outside our control, we make no warranties, expressed or implied, and assume no liability in connection with any use of this information.

SECTION I - IDENTITY

Product Type: Retail trade.

Description: Deodorant/antiperspirant.

Product Code: This product comes in a variety of fragrances (e.g. regular, baby fresh and citrus) and sizes (e.g. 1.5 oz or 2.0 oz) each with a unique product code.

Ingredients Potentially Hazardous: 1. ethyl alcohol, CAS #: 64-17-5, OSHA PEL-1000 ppm, ACGIH TLV-1000 ppm with A4 designation, NIOSH REL-1000 ppm.

SECTION II - PHYSICAL/CHEMICAL CHARACTERISTICS

Appearance: Clear, slightly viscous solid having a characteristic perfume odor.

Boiling Point: 1.06-1.14 @ 21°C.

Solubility: Partial in water.

SECTION III - FIRE AND EXPLOSION HAZARD DATA

Condition: Non-ignitable solid. This product does contain ethyl alcohol which has a flash point of 70°F (closed cup). Exposure to fire or high heat may release ethyl alcohol vapors. The vapors are heavier than air and may travel a distance to a source of ignition.

Extinguishing Media: For small fires use dry chemical, CO₂, water spray, or alcohol resistant foam. For large fires use water spray, fog, or alcohol resistant foam.

SECTION IV - REACTIVITY DATA

Incompatibilities: Oxidizing materials.

Hazardous Polymerization: Will not occur.

Hazardous Decomposition or Byproducts: This product is stable. If involved in fire, the packaging materials and the product may produce poisonous gas.

SECTION V - TOXICOLOGY/HEALTH EFFECTS

Occupational exposure is not expected to produce adverse human health effects following normal workplace practices. Product has very low acute toxicity. Slight skin irritation from skin contact is possible in sensitive individuals. Direct eye contact may cause temporary discomfort with mild redness and dryness.

SECTION VI - FIRST AID

Route of Entry: Accidental ingestion is possible, however, no adverse effects are known.

Emergency and First Aid Procedures:

- For allergic reaction resulting from skin contact, wash affected area with soap and water and avoid further contact.
- For eye contact, flush with plenty of water.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING

General: Store away from heat or flame sources.

Steps to Be Taken if Case Material is Spilled: Remove ignition sources. Pick up in the most efficient manner. Product can be very slippery due to the silicone content.

Waste Disposal Method: Place material into waste receptacles and dispose of in accordance with environmental regulations.

SECTION VIII - CONTROL MEASURES

Personal Protective Equipment: Not normally required.

Ventilation: General ventilation is adequate.
